

Cloud Migration Starter Pack

Summary:

Accelerate your move to the cloud with a structured, low-risk migration of critical workloads to Microsoft Azure. Perfect for mid-sized businesses looking to modernize, improve resilience, and reduce infrastructure overhead without disruption.

Who It's For:

- Mid-sized companies with on-premises or hybrid infrastructure
- Businesses with legacy systems
- Teams that want a guided cloud migration without overhauling everything at once

What You Get:

Deliverable	Description
Cloud Readiness Assessment	Analysis of current infrastructure, apps, and workloads
Migration Plan & Roadmap	Architecture blueprint, phased migration timeline
Pilot Migration of 1-2 Workloads	Email server, file storage, internal apps, databases
Post-Migration Testing & Optimization	Validate functionality, security, and performance
Knowledge Transfer Session	Handover to internal teams and documentation
30-Day Support Window	Post-migration monitoring, issue resolution, and fine-tuning

Duration:

3-4 weeks (depending on scope and workload type)

Pricing:

Tier	Price (ZAR)	Scope
Basic	R45,000	1 workload, basic assessment, single domain
Pro	R75,000	2 workloads, deeper network/storage integration
Enterprise	R100,000+	Multi-workload, hybrid AD, security audit, DR

Custom quotes are available for larger enterprise environments or compliance-heavy workloads.

Business Outcomes:

- Save on physical infrastructure & IT overhead
- Enable scalability, performance, and better uptime
- Create a foundation for automation, AI, and innovation
- Peace of mind from working with an experienced cloud-native architect
